## INTRODUCTORY.

**T**HE MOST approved form of high-class pleasure travel to-day is undoubtedly the Yachting Cruise. Properly managed, it represents the latest development of modern luxury and convenience, and the fullest application of organization and co-operation in travel. It is typical "Twentieth Century" travel, in that it renders accessible to the many what was for years the exclusive privilege of the wealthy few. It possesses, among many obvious advantages, the important one of permitting the voyager to assume at pleasure, or as the occasion may demand, the *role* of one of a numerous company of fellow-travelers, or of a member of a smaller and private section of the same, or to be simply an individual passenger on a well-filled Ocean steamship.

The Oriental Cruise described in the following pages embodies all the best features and most recent advances in this delightful mode of travel. The region to be visited—the Mediterranean and adjacent European and Oriental countries—is pre-eminently adapted to the conditions of such a tour, full of strong contrasts and varied attractions. We have specially chartered for the Cruise a steamship peculiarly suited to the purpose, and bring to the preparation and management of the undertaking an experience of SIXTY-ONE YEARS in this business, and a world-wide organization and equipment. We call attention to this here, because it is only our superior and exclusive facilities which have enabled us to offer the very complete Cruise itself for so small a price, and to make the extraordinarily moderate charges for the Optional Extensions and Side Trips.

*Thos. Cook & Son.*

S. S. "MOLTKE."—PROMENADE DECK.

## THE CRUISE.

The regions to be visited in the course of this Cruise are among the most beautiful, varied and interesting in the world. Along the shores of the sunny Mediterranean, where the Phœnician galleys crept from point to point in man's earliest efforts at navigation, our voyagers will sail in one of the finest examples of modern maritime construction yet produced, to visit lands famous in history and mythology, celebrated for their scenic beauty, the momentous events that have transpired within their borders, the wonderful relics of past ages they contain, and the treasures of ancient and modern art stored in their great cities. The tourists will

AN ORIENTAL TYPE.

see the great modern fortresses of Gibraltar and Malta; at Algiers, Constantinople and Ca'ro mingle with the picturesque life of the strange Mohammedan world in those mysterious Oriental countries that seem to have remained unchanged since the days of Saladin and Haroun Al Raschid; in the Holy Land tread the self-same paths and view the same hills and valleys and cities as the Patriarchs and Apostles, and dwell for a time among the actual scenes of the Sacred Story. In Rome and Athens they will visit the beautiful and astonishing remains of the classical world; in Egypt and on the Nile the stupendous Pyramids and marvellous pictured Temples, Tombs and ruined cities many thousands of years old, while at Nice and Monte Carlo—the gems of the beautiful

S. S. "MOLTKE."—ONE OF THE DINING ROOMS.

Riviera, and the Winter playground of the *elite* of European Society—the luxury, gaiety and brilliance of the modern world are seen at their height.

The whole time will be spent in the perfect Winter climate of the Mediterranean, a season when most of the region is bright with flowers and luxuriant foliage; when skies are always blue, the air balmy and health-giving; the weather, in fact, enjoyed here in early summer. The members will thus escape the worst of our Northern Winter, with its ice and snow and bitter winds, and generally uncomfortable accompaniments.

### THE S. S. "MOLTKE,"

which we have specially chartered from the Hamburg American Line, is a new and magnificent example of the modern palatial Ocean liner, and fully maintains the high standard of construction and equipment which has always distinguished the Hamburg American Line, and enabled that famous organization to attain its present position as the largest Steamship Company of the world. The dimensions of the "Moltke" are: Length, 525 feet; width, 62 feet; depth, 45 feet. The hull is divided into numerous water-tight compartments, and provided with a double bottom, features that add greatly to the security of the vessel, while her large bilge keels give unusual steadiness at sea, and almost entirely obviate "rolling" and the accompanying seasickness. The twin screws are driven by two sets of quadruple expansion engines of great power.

The passenger accommodation is not only decorated and furnished in a most elaborate and artistic manner, but possesses several novel features of great value. One of these is the fine

### GYMNASIUM,

fully equipped with modern apparatus of every kind, including mechanical massage apparatus. On an extended voyage this opportunity of obtaining suitable exercise will be much appreciated, and will materially assist in making the time pass pleasantly.

### SPORTS.

In addition to the attractions of the Gymnasium, which will be always at the disposal of the passengers, a number of athletic events and contests for the passengers will take place, numerous *gymkhana* being arranged. These will be managed and controlled by a committee of the passengers.

S. S. "MOLTKE,"—THE GRILL ROOM.

## THE GRILL ROOM

will be a great attraction to those who may wish to dine when they please, or who may not feel well enough on stormy days to go to the dining saloon. At the head of the main companionway there is a large

## HOTEL OFFICE AND POST OFFICE,

or steward's office, which must prove a great convenience to passengers during the Cruise.

## SHELTERED CORNERS

are provided on the Promenade and Boat Decks, so that in the unlikely event of rough weather being encountered, the passengers may take the fresh air in comfort, and these corners have been beautifully furnished with palms and other fresh foliage plants. The

## SALOONS AND SMOKING ROOMS,

and all the other spacious apartments are most luxuriously furnished, and were designed to afford ample accommodation for a much larger number of passengers than will accompany this Cruise.

## THE STATEROOMS

are all unusually large, and the most thoughtful consideration has been displayed to make them thoroughly comfortable and homelike. Their equipment is complete, down to such details as electric curling-irons for ladies, and electric food-warmers for invalids and children. A large number of the rooms have lower berths only, many of them may be arranged *en suite* for the use of families or friends, and there are a number of Chambres de Luxe, with private bath and toilet. Many of the staterooms have been fitted for the sole use of one person only. There are no less than

## THIRTY BATH ROOMS

on the "Moltke" provided with all the latest improvements, such as hot and cold showers.

Marine Expedition

S. S. "MOLTKE."—THE GYMNASIUM.

## CUISINE, ETC.

The Hamburg American Line is celebrated for the superior excellence of its Cuisine, and for this Cruise a most elaborate and bountiful table will be provided, amply supplied with all the delicacies of the season. Cigars, wines, beers and mineral waters may be had on board, of the first quality, at moderate prices.

It would be possible, did space permit, to mention many more attractions and advantages to be found on board the "Moltke," but enough has been said to justify our statement that for this Cruise we have chartered one of

## THE MOST LUXURIOUS OCEAN STEAMSHIPS AFLOAT.

And this magnificent vessel will be absolutely at the service of the party for the entire Cruise.

To add to the comfort of the members and to avoid overcrowding, the

## NUMBER OF PASSENGERS IS LIMITED

to the ordinary cabin stateroom capacity of the vessel. The "Moltke" has comfortably carried across the Atlantic on one voyage no less than 2,500 passengers, but for this Cruise only about 500 passengers will be taken, all being accommodated in the permanent cabin staterooms. All the spacious saloon and deck accommodations, designed for a large number of passengers, will be entirely at the service of the comparatively small number of passengers carried on this Cruise. Experienced travelers will appreciate the additional comfort conferred by this exceptional arrangement. The passengers for this Cruise are not to be regarded as one large party, but to promote to the utmost their comfort and convenience, will be arranged in many small parties or sections, which may be made up according to the wishes of the members. In many parts of the country, special sections are being locally organized—congenial acquaintances and neighbors are planning to travel in company. The ladies and gentlemen composing these sections will be assigned, as far as possible, to adjacent staterooms and seats at table, also accommodated at the same hotels.

S. S. "MOLTKE."—ONE OF THE SMOKING ROOMS.

## PERSONAL MANAGEMENT.

The "Moltke" is specially chartered by THOS. COOK & SON, and the Cruise will be managed throughout by them. The whole of the arrangements are being managed and supervised throughout by the American Manager, assisted by a competent staff of Conductors and Interpreters. In Egypt and Palestine all the plans will be carried out by the Resident Managers, men who have lived continuously on the spot for many years, and fully understand the languages and characteristics of the peoples. The whole of the immense equipment owned by THOS. COOK & SON will be at the disposal of members of the Cruise, both in Egypt and Palestine, thus insuring suitable accommodations, that cannot otherwise be obtained. Some idea of our facilities in Palestine may be obtained from the several illustrations in this pamphlet, from photographs taken in that country. THOS. COOK & SON maintain their own offices everywhere throughout the Mediterranean, the East and Europe, in which respect they stand alone. In Egypt they own and operate a large fleet of large and elegantly equipped steamers, specially built for the Nile service. In Palestine they maintain a large permanent staff and immense equipment for managing travel by either camp, carriages, or rail where available.

## TO SECURE MEMBERSHIP.

Already a very large number of berths have been applied for, and in order to secure passage, immediate application should be made, with full name and address, and a deposit of \$10 per passenger. On receipt thereof a Deposit Receipt will be sent, with plan of the steamer, showing berth allotted. On November 1 a further payment of \$40 per passenger must be made, and the balance of the passage money must be paid by January 5, 1903. The staterooms are graded according to desirability of location, size, and number of passengers to occupy them, as on all Ocean steamers. The higher priced rooms are better located and more commodious, and are more elegantly equipped, but all the passengers have the same deck and saloon privileges. As the staterooms of each category are allotted strictly according to priority of application, an

## IMMEDIATE SELECTION

is very advantageous. The small deposit required to secure a berth makes this an easy matter.

MOLTKE SOCIAL HALL

S. S. "MOLTKE." — THE SOCIAL HALL.

## STATEROOMS AND SEATS AT TABLE

will be assigned for the entire Cruise.

### OPTIONAL SIDE TRIPS.

In addition to the very complete Itinerary of the Cruise, we have planned a number of attractive side trips in the HOLY LAND, on THE NILE and in EUROPE. These are offered at unprecedentedly low fares, such as have never before been available in these countries, and ample time is allowed for these extra Tours being carried out in a most comfortable and satisfactory manner. As already stated, the unique facilities possessed by THOS. COOK & SON throughout the East and Europe make it possible to offer our patrons superior and exclusive advantages, both as regards fares and character of accommodation provided.

The steamer makes two trips between Jaffa and Alexandria (see Itinerary on page 37), so that passengers have the choice of spending five days in Palestine and twelve in Egypt, or *vice versa*.

### TO RETURN ACROSS EUROPE.

For members wishing to combine a short Continental Tour of Europe with this Oriental Cruise, a special series of short tours has been arranged, full particulars of which will be found in this pamphlet.

### VALIDITY OF TICKETS.

Passengers have the option of returning by any steamship of the Hamburg-American Line, including the famous "Deutschland," one of the fastest ocean steamships in the world; the "Fürst Bismarck," "Auguste Victoria," "Columbia," etc., at any time previous to August 1, 1903, the accommodation furnished being of the same character as that occupied on the "Moltke." Any passengers desiring to remain over later than August 1 can do so at their leisure, subject to the payment of a slight additional charge in the event of their returning during the height of the season. This to be arranged in Europe.

## RATE OF FARE FOR 70-DAY CRUISE, \$300 and Upwards.

Since the first announcement was made, there has been such an instantaneous and widespread demand for accommodation, that all the berths at \$300, \$350 and \$375 have

*Dyer & Co.*  
LITH.

MOLTKE HOTEL & POST OFFICE

been reserved, and deposits accepted. Should any of these passengers withdraw, the berths will be again placed on sale. In the meantime, there is ample accommodation at \$400 and upwards. On application a plan will be sent, showing location and price of every stateroom on the ship.

### THE FARE INCLUDES

1. Steamship and railway tickets for the entire route.
2. Full accommodation on board the "Moltke" in accordance with the well-known and luxurious service of the Hamburg American Line. Hotel accommodation on shore, where indicated in the Itinerary, consisting of three meals per day.
3. Transfers to and from stations, piers, hotels, etc., where necessary.
4. Fees for sightseeing mentioned in Itinerary, portage, and all traveling expenses, except the steward's fee on the steamer, which is an entirely personal matter, and cannot be included.
5. Services of local guides, interpreters, dragomans, etc., where necessary, and the services of Cook's representatives and Conductors throughout the Cruise.
6. Landing and embarkation at ports of Madeira, Gibraltar, Algiers, Malta, Piræus, Constantinople, Smyrna, Beyrout, Jaffa, Haifa, Alexandria, Naples and Villefranche.
7. Carriage drives at Alexandria, Cairo, the Pyramids, Jerusalem to Bethlehem, the Pools of Solomon, Mount of Olives, Gethsemane and Bethany, Naples, and one entire day in Rome.
8. Shore Excursions, as per Itinerary, from Gibraltar to Granada, the Alhambra and return; Valetta, Malta, to Citta Vecchia and return; Alexandria to Cairo and return; Jaffa to Jerusalem, Bethlehem and return; Piræus to Athens (two days), Naples, Pompeii and Rome; Villefranche to Nice and Monte Carlo and return.

### NOTES FOR MEMBERS.

**BAGGAGE.**—Our Conductors and representatives look after all baggage, except hand-baggage. Each passenger is allowed twenty cubic feet (about 300 lbs.) of personal baggage on the steamer, and the free conveyance of 56 lbs. in Europe. For the Jerusalem, Cairo and Rome excursions, each passenger is allowed two valises and a dress-suit case.

S. S. "MOLTKE."—ONE OF THE STATEROOMS.

Ladies spending twelve days in Palestine or Egypt will be allowed one trunk or two valises. No trunks will be taken up the Nile.

On board the steamer a baggage room will be provided for large trunks, to which daily access will be allowed. All articles required during the voyage should be carried in a steamer trunk, which must not exceed fourteen inches in height, so that it may go under the berth.

All trunks and hand baggage must have tags attached, showing name of passenger, and number of stateroom; proper tags will be furnished by us for this purpose. Baggage may be sent to the Hamburg Piers, foot of First Street, Hoboken, two days before sailing, where it will be placed in the baggage room, *and not sent on board until claimed by the passenger before embarking.* Out-of-town passengers arriving in New York can have their baggage checked to the pier by the express baggage agent on the train, but ample time must be allowed.

While anxious to render all possible assistance to travelers in the transport, care and checking of baggage, THOS. COOK & SON are not responsible in cases of detention, damage to or loss of baggage. In all cases of transference, each article of baggage must be identified by its owner, especially on entering and leaving hotels and railway stations, and whenever baggage is subject to Customs examination its owner must be present. Small packages, such as handbags, umbrellas, traveling rugs, etc., must remain entirely under the control of the owner.

**EXTRA FUNDS.**—The safest and most convenient manner in which to carry funds for any intended purchases, is by means of CIRCULAR NOTES, issued at any of the offices of THOS. COOK & SON in America. The cost is but 50 cents per \$100; they are cashed at upwards of one thousand places by banks, hotels, etc., and in case of loss, payment may be stopped and the money recovered. THOS. COOK & SON also issue LETTERS OF CREDIT and make cable transfers, and have on hand foreign money of the various countries of Europe for sale at current rates.

**PASSPORTS.**—Passports with *visé* of the Turkish Consul are necessary, and can be obtained through us at a cost of \$3.00, including *visé*. In making application state whether you are a native-born or naturalized citizen. One passport is sufficient for a man and wife and minor

JALISTINE.—INTERIOR OF ONE OF COOK'S PAVILIONS, AS PROVIDED FOR H. I. M. THE EMPEROR OF GERMANY.

children. Passengers taking the Galilee or Samaria trip also require a Turkish *tazkarah*, or local passport, which will cost \$1.60, a form for which will be sent.

**CLOTHING.**—The tourist should be governed by his ordinary custom in this matter. Many ladies and gentlemen dress for dinner on board ship, also at hotels at Cairo and elsewhere, but this is not obligatory. For the Atlantic voyage warm clothing is necessary, also steamer rug for the deck. For use on shore, ordinary Spring or Fall clothing, with both light and heavy underclothes; one or two good pairs of shoes.

**STEAMER CHAIRS.**—Steamer chairs may be hired from THOS. COOK & SON for the Cruise at a cost of \$2.00. This must be arranged when booking.

**INSTRUCTIONS FOR FORWARDING MAIL** will be sent to passengers before sailing, printed for the use of friends at home, who will also be advised by postal card of the safe arrival of the steamer at the principal ports, if a proper address is registered before sailing.

### SPECIAL NOTICE.

In the event of the Managers (THOS. COOK & SON) or the Owners (The Hamburg-American Line) considering it advisable in their discretion to withdraw the steamer on account of the imposition of quarantine or any other cause, the full amounts paid shall be returned, and upon the tendering of the same the firm and ship shall be free from all liability.

Neither the Managers nor the Owners are responsible for loss of time or money consequent on the irregularity of steamboat or railway service, quarantine, sickness, or any calamity or hindrance (Acts of God) caused by circumstances over which they have no control; and should delays or alterations occur through these, the passengers will have to pay any additional necessary expenses for living and accommodation in hotels or on steamers which may be incurred beyond the specified period.

Should these or any other circumstances make it necessary to omit one or more of the ports of call mentioned in the Itinerary, the Managers and Owners shall be free from all liability in respect of such omissions. These, however, are very remote contingencies, but should they occur, the judgment of the Captain of the ship must be accepted as final.

# DAILY ITINERARY

OF THE

## MAIN TOUR.

**Wednesday, February 4, 1903.**—Leave New York at 11 A. M. by the Hamburg-American Line new twin-screw steamship "Moltke," the most luxuriously appointed 12,000-ton steamship afloat. (*Steamer sails from Hamburg Piers, foot of First Street, Hoboken. Passengers should take the Barclay Street or Christopher Street Ferry from New York.*)

The steamer follows a southerly course, through the warm and pleasant expanse of the South Atlantic Ocean, the bitter winter weather of New York being soon exchanged for a mild and exhilarating temperature and brilliant skies. The superb service and many attractions on board the "Moltke" make the eight-day voyage to Madeira, the first port touched at, a delightful and beneficial experience, and relieve the daily life of any semblance of monotony.

**and** } steamer remains about 26  
**Friday, February 13.** } hours. Funchal, the port of  
call, is the capital of these fertile and beautiful islands,  
which belong to the Kingdom of Portugal. The scenery is  
magnificent and varied, though chiefly mountainous in  
character. Owing to the steepness of the roads, sledges,  
drawn by bullocks, take the place of wheeled vehicles, of  
which there are none on the islands. Other modes of loco-  
motion are hammocks and basket sledges, the latter being  
used for descending the mountains, skilfully guided by a  
runner behind. Madeira is noted for its flowers and fruit,  
and also for basket-work, embroidery, lace shawls, gold  
and silver inlaid work, etc.

Leaving Funchal at 2 P. M. on Friday, the steamer pro-  
ceeds to Gibraltar.

## SPAIN.

**Monday, February 16.** } is the most picturesque and  
strongest fortress in the world, one of Great Britain's  
strongholds in the Mediterranean, the western entrance to  
which it guards. The highest point of the great Rock is

1,430 feet, whence a magnificent view is obtained. Two or three miles of galleries have been tunnelled through the solid rock, and batteries placed at all available points. The whole rock is honeycombed with fortifications, some of the hidden batteries being known only to a select few.

From Gibraltar a most interesting side trip is made to **Granada**, for the Alhambra. Leave Gibraltar, via Algeciras and Ronda. The country through which the railroad passes is simply charming, its bo'd and varied

scenery being rich in cork and other woods, as well as corn, fruit and olives. **Ronda**, which is passed en route, is one of the most picturesque cities in Europe. 2,500 feet above sea level. The ancient town is divided from the modern by the Tago, a huge chasm in the mountains, 200 feet wide and 250 feet deep. **Granada**, the city of running waters and fountains, is situated on one of the loveliest plains in the world. The surrounding country abounds in beautiful scenery, and the air, even in the hottest season, is delightfully tempered by the snow-capped mountains of the Sierra Nevada. The great attraction is the **Alhambra**, a wonderful Moorish palace, whose beauties have been celebrated by all travellers, especially Washington Irving. It is situated in the midst of a noble forest, surrounded by gardens, built with sumptuous taste, and is undoubtedly the grandest monument of Arabic genius in Europe. The various Halls and Courts of the palace will be visited, among others the famous Court of the Lions, the Hall of the Abencerrages and other magnificent apartments.

of the Mediterranean, is a picturesque and delightful com-  
bination of Oriental life and Western comforts. The town  
rises in terraces of dazzling whiteness from the blue water  
of a beautiful bay. In its narrow streets are seen a motley  
population of Arabs, Berbers, Turks, Moors, Bedouins,  
negroes, caravans from the interior, story tellers, snake  
charmers and all the curious features of Oriental life, while  
the city contains many beautiful examples of Moorish and  
Byzantine architecture.

## MALTA.

**Saturday, February 21.**—Is spent at **Malta**, another of Great Britain's fortresses, and a most interesting spot, actually and historically. (*Cook's Office, 308 Strada Reale, Valetta.*) It is supposed to have been the scene of St. Paul's shipwreck, and it contains many places and objects of great interest. From Valetta, the port of call, famous for its harbor, a visit will be made to Citta Vecchia, founded B. C. 700, the ancient capital, a city of stately palaces and crumbling Old World fortifications.

## GREECE.

important is the world-famous Acropolis, where all the most glorious monuments of the ancient city were assembled, and where their remains still stand, a wonder to all time. Two of the finest and best preserved monuments of the period immediately preceding the Christian Era are the Temples of Theseus and Jupiter Olympus. The principal places of historic interest to be visited may be briefly summarized as follows: The Acropolis, with the Parthenon, Temple of Victory and Erechtheum, the Theatre of Bacchus, Panathenaic Stadium, Temple of Archegetis, Porch of Hadrian, Temple of Theseus, Mars Hill, etc.

**Wednesday, February 25.**—Expect to pass through the **Dardanelles** early in the morning. On each side is an immense fort, which completely commands the strait, and near each is a handsome town—Kheled-Bahri on the European shore, and Chanak-Kalesi on the Asiatic. Above these two towns the strait expands into a sort of a bay, formed on the north by a promontory jutting out from the Asiatic shore; and upon this promontory stood old Abydos. Here Leander swam to Hero, Byron to aquatic fame, and here Xerxes laid his bridge.

*Office, 12 Rue Cabristan.*)

Constantinople proper, the Turkish Stamboul, is situated on the south side of the Golden Horn, an arm of the sea that forms a splendid harbor. It is certainly the most remarkable and interesting city in Europe, not only on historical grounds, but also because of the many Oriental types of life and character in which it abounds. The principal sights of Constantinople are the Bazaars, Mosques, Tombs, the Seraglio, the offices of the Sublime Porte, the Museum of the Janissaries and the Cemetery of Scutari. The most important mosques are those of St. Sophia, one of the famous edifices of the world; Sulieman, Achmed, Mohammed II. and Eyret. The famous Bazaars are most characteristic of Oriental life. The numberless little shops form a great arch-covered labyrinth of streets, passages and crossways, and display a curious and interesting collection of merchandise, gold and silver smiths' work, jewels and precious stones, arms and armor, fabrics of every kind, embroideries, spices—every article of Oriental and Occi-

dental production it is possible to think of. Another great attraction is the famous Imperial Ottoman Museum, one of the most valuable museums in the world.

During the stay at Constantinople an excursion by steamboats will be made up the Golden Horn, and the "Moltke" will proceed up the Bosphorus for a trip to the Black Sea and return on the day of departure.

### THE LEVANT.

**Sunday, March 1.**—Arrive at **Smyrna** early in the morning, and land to visit the famous Bazaars and other sights, the Tomb of Polycarp, the Acropolis on Mount Pagus, etc.

For passengers wishing to visit the extensive ruins of **Ephesus**, a special train will be arranged to make the trip. Among the sights of Ephesus are the marvelous ruin of the great Temple of Diana, the traditional prison of St. Paul and the tomb of St. Luke. Cost of excursion, \$3.50.

The voyage from Constantinople and Smyrna, through the Ægean Sea and among the beautiful islands of the Grecian Archipelago, is one of continuous beauty and interest. The steamer passes Rhodes and Cyprus, islands famous in history and mythology. Charles Dudley Warner, describing the voyage, says: "The view was surpassingly lovely; islands, green and poetic, a coast ever retreating and advancing, as if in coquetry with the blue waves, purple robing the hills—a voyage for poets and lotus eaters."

AN EASTERN STREET.

### THE HOLY LAND.

**Tuesday, March 3.**—Arrive at **Beyrout**, the principal commercial town of Syria, a city of great antiquity, beautifully situated on a bold promontory, with walls three

miles in circumference. (*Cook's Office, near Hotel d'Orient.*) Beyrout is famous for its missionary and philanthropic institutions, chief among which is the American Mission, established in 1823. Pleasant excursions may be made to the environs, the chief of which is to the Dog River to view the sculptures cut on the face of the rocks. These are nine in number—three Egyptian and six Assyrian. One of the former is dedicated to Phthah, the god of Memphis; another to Ra, the Sun god; the third records certain expeditions of Sesostris (Rameses II.). The Assyrian sculptures are regarded as the work of Sennacherib, who invaded Syria 701 B. C. On this occasion the steamer makes only a short stay, returning on March 5 for three days. The passengers for the Excursion to Damascus (see page 59) leave the ship here. The steamer sails at midnight for Haifa.

**Wednesday, March 4.**—A call at **Haifa**. (*Cook's Office, near Hotel Carmel.*) Land passengers for the Tour to Galilee and Samaria, described on page 60, and proceed to Jaffa. On March 8 the steamer returns to Haifa and remains 12 hours.

**Wednesday, March 4.**—Arrive at noon at **Jaffa**, the ancient Joppa (*Cook's Office, German Colony*), and after visiting Simon's House and other historic places proceed

by special train to Jerusalem, passing the Plain of Sharon, Ramleh and the mountains of Judea. Jerusalem is reached in three and a half hours.

*Notice.—The choice of five days in Egypt and twelve days in the Holy Land, or vice versa, is offered, and the "Moltke" will make a double trip between Palestine and Egypt for this purpose. Passengers must decide which they will take by January 5, 1903. In either case we provide the hotel accommodations.*

Jerusalem, the Holy City, stands on four hills, once separated by deep valleys, but now partially filled up by the debris of successive destructions of the city. The modern city may be considered as the eighth built on the same spot, and the foundations of the ancient walls are in some places 130 feet below the surface. It is inclosed by walls averaging about 35 feet in height, containing thirty-four towers and eight gates,

six open and two closed. Among the chief objects and places of interest to be visited are the Church of the Holy Sepulchre, the Garden Tomb, the site of the Temple with the Mosque of Omar, the Via Dolorosa, the House of Caiaphas, Tombs of the Judges, Tombs of the Kings, Solomon's Quarries, the Tomb of David, Garden of Gethsemane, etc.

The party will visit **Bethlehem** and **Bethany** by carriage. Bethlehem is situated on an elongated hill, well cultivated in terraces, and with fertile cornfields in the valley below. On the terraces vines and fig trees flourish in abundance. The great sight of Bethlehem is the Church of the Nativity, built over a cave or grotto in the hillside, universally believed to be the actual place of Our Lord's birth.

Bethany is a prettily situated village amid luxuriant gardens and cornfields, where may be seen the House of Mary and Martha, an old tower called the Castle of Lazarus, and the so-called Tomb of Lazarus. Other excursions may be

made to the **Dead Sea, Jordan, Jericho**, etc., at a slight extra expense. For other excursions in the Holy Land, Galilee, Samaria, Damascus, etc., see pages 59-65.

**Monday, March 9 (or 16).**—Leave Jerusalem early in the morning by rail for Jaffa, and sail for Alexandria.

### EGYPT.

*(Option of Five or Twelve Days in Egypt.)*

**Tuesday, March 10 (or 17).**—Arrive at **Alexandria** at 7 A. M. and proceed by train to Cairo. (*Cook's Office, Rue Cherif Pacha.*) After landing passengers leaving Jaffa on March 9, the steamer returns to that port for those who have decided to remain for 12 days in the Holy Land, returning with these to Alexandria on March 17. Passengers must decide whether they will stay 12 days in Palestine and 5 in Egypt, or 5 days in Palestine and 12 in Egypt, not later than January 5, 1903. In either case we provide the hotel accommodation.

EGYPT.—THE PYRAMIDS.

Mokuttam Hills, the great "Al Cairo," as Milton calls it, the city of Saladin and the Arabian Nights, is an everchanging panorama of life and interest. In the older parts of the city the streets are so narrow as to scarcely admit of two camels passing abreast; its bazaars glow with the richest productions of the looms of the East; its mosques and minarets are apparently innumerable, and its fountains fill the air with an enduring freshness.

The crowd of people of every nationality passing hither and thither is perfectly bewildering—a moving mass of white turbans, red fezes, of blue, black, white and yellow garments, while the centre has its lines of camels, donkeys and carriages moving slowly in each direction.

The Minarets of Cairo are the most beautiful of any in the East, towering to an extraordinary height, built of alternate courses of red and white sandstone and ornamented with balconies from which muezzins announce the hour of prayer.

The principal objects of interest in Cairo are the Bazaars, which are intensely interesting; the Dancing Dervishes, the many beautiful Mosques (there are 400 in various stages of preservation), the Citadel, which overlooks the city from a towering rock; the Museum at Gizeh, a perfect treasure house of Egyptian antiquities; Tombs and Cemeteries and the walls of the city. In the environs are

the following: The Obelisk of Heliopolis, Ruins of Memphis, the Petrified Forest, the Tombs of the Caliphs and the Pyramids of Ghizeh and Sakkarah.

Arrangements have been perfected for the stay of the party in Cairo that will insure a most satisfactory and enjoyable visit. Many of the principal points of interest will be visited in companies of a suitable number, under the charge of competent guides, carriages being furnished where necessary, for the trip to the Pyramids and the Sphinx, and also for one drive through the city and environs. The small parties will in this way be able to inspect and explore every locality and object of interest worth visiting, including those enumerated above, and all others necessary to give the members of the cruise a thorough knowledge of Cairo and Cairene life. All expenses, fees and back-sheesh are provided, including admission to the Pyramid of Gizeh, Sphinx, Museum, etc., but not the extra assistance of Arabs for ascending the Pyramid.

**Sunday, March 22.**—Leave Cairo for Alexandria. A carriage drive will be provided, visiting the chief sights of this interesting and historic city, Pompey's Pillar, etc. In the afternoon sail for Naples.

### STRAITS OF MESSINA.

The ship's course, after leaving Alexandria, lies through the Straits of Messina, between Italy and Sicily, where the ancients located the rock of Scylla and the whirlpool of Charybdis, and passing within sight of the volcanoes of Etna and Stromboli.

### ITALY.

**Wednesday, March 25,** } —Arrive at **Naples** on Wednesday. (*Cook's Office, Piazza dei Martiri.*) During the stay of six days the party will be divided into sections for visiting Naples and its vicinity, Pompeii and Rome; accommodations, sightseeing, carriage drives, etc., as stated on page 44, will be furnished at the expense of THOS. COOK & SON.

**Naples** is the chief city of Southern Italy, splendidly situated on one of the most beautiful bays in the world, and as seen from the sea is one of the loveliest spots in Europe.

On the east Vesuvius raises its isolated summit with its eternal crown of smoke. Herculaneum and Pompeii nestle under its green slopes, and to the west the wide amphitheatre of the town, with its multi-colored buildings and background of green hills. The street life of Naples is a striking and picturesque scene, especially on market days, and it is one of the most important centres in Europe for tourists and travelers. Among the places to be visited are the Museum, the Cathedral of San Genaro, the Royal Palace, Castles of St. Elmo, Capuano, Nuevo, del Carmine, etc., Virgil's Tomb and many churches.

**Rome.** (*Cook's Offices, 51 Piazza Esedra di Termini and ib Piazza di Spagna.*) It is impossible to describe in a few lines the attractions of Rome, the "Eternal City." Its antiquities are legion. Among its notable buildings, whose names are known the world over, are the Vatican, St. Peter's, the Capitol, Quirinal, Coliseum, Pantheon, Forum, Lateran, Castle of St. Angelo, Temple of Venus and many

NAPLES.

others. There are over 360 churches, many of them famous for their architectural beauty or the treasures they contain. Rome has a thousand attractions—street life of to-day, its antiquities and endless treasures of Art, and every moment spent within the walls must be full of interest to every one.

The time spent in Italy will be so arranged as to avoid confusion between those sections who leave the party at Naples for the Optional Excursions through Europe and those proceeding on the steamer to Villefranche.

While the sections are in Naples they will sleep on board the Steamship "Moltke"; for the excursion to Pompeii and Rome hotel accommodation will be provided at our expense, and a suitable arrangement of time will be made to allow those passengers who desire to take the Optional Trips to Vesuvius and the Blue Grotto at Capri, but it must be noted that bookings for these optional trips must be made by January 5, 1903, in order that accommodation, which is limited, may be secured. The ascent of Vesuvius is made by the Funicular Railway, the property of THOS. COOK & SON, and the cost of the trip is \$5. The visit to Capri is by local steamer, the expense, including the Blue Grotto, being \$4; these being extras.

*In Italy the following accommodation is furnished at the expense of THOS. COOK & SON: Transfers to and from the steamer at Naples; a carriage drive in Naples; excursion by rail to Pompeii and Rome, with 4 days' hotel accommodation and one day's carriage drive in Rome; transfers in Rome and the services of experienced Guides and Conductors and an accomplished archaeologist in Rome.*

## THE RIVIERA.

**Wednesday, April 1,** }—The steamer is due to arrive at  
or **Villefranche**, the port of Nice,  
**Thursday, April 2.** } and visits will be made to **Nice**  
and **Monte Carlo**. Nice is the chief pleasure resort of  
the lovely Riviera, a beautiful and interesting city and famous Society resort. Monte Carlo is visited by pleasure seekers and the *elite* of European society on account of its perfect climate and matchless scenery, as well as from the

attractions of the “Cercle des Etrangers,” as the gambling establishment is called. At the time of our visit the season will be at its height, and the resorts of the Riviera thronged with Royal and other distinguished personages. The steamer sails from Villefranche for New York at midnight.

class throughout..... **\$75**

Including the Egyptian Government tax of \$5.

## DAILY ITINERARY.

**Tuesday, March 10, 1903.**—The steamship "Moltke" will  
arrive at **Alexandria** at 7 A. M. Passengers for the Nile  
will leave by fast express train for **Cairo** and transfer to  
one of COOK'S Tourist Steamers.

The first stoppage after leaving Cairo is made at Bed-  
rachin, where donkeys will be in readiness for the pas-  
sengers. The site of ancient **Memphis** is now covered  
with shady groves of picturesque palms, among which re-  
cline the two famous colossal statues of Rameses the Great.  
The necessary time will be allowed for visiting the step  
pyramid of Sakkarah, Mariette Bey's house; the Serapeum,  
the Tomb of Tih and the Pyramid of Oonas, opened and  
cleared at the expense of THOS. COOK & SON. The steamer  
will proceed for that night as far as Ayat.

**Wednesday, March 11.**—The steamer will leave Ayat at  
daylight, and during the day the following places of inter-  
est will be passed: The dwarf Pyramid of Maydoom, called

El Kedab, or "the false pyramid;" Wasta, a village of some importance and the railway junction for the Fayoum; Beni-sooef, the chief town of the province; Maghaga, where there is one of the largest sugar manufactories in Upper Egypt; "Gebel-el-Tayr," on the top of which stands a Coptic Convent, and Minieh, a populous Arab town. Shortly after Beni-Hassan is reached.

**Thursday, March 12.**—Leave Beni-Hassan early in the morning; pass Rodah, where there is an important sugar manufactory; the mountain "Gabel-aboo-faydah" and Manfaloot, to **Assiout**, where the gigantic subsidiary reservoir has been constructed. If time permits, land at Assiout and visit the Bazaars, etc. The steamer proceeds to Aboutig for the night.

**Friday, March 13.**—The steamer passes Sohag, an important place, and Girgeh, reaching Bellianah, the stopping place for Abydos, in the evening.

**Saturday, March 14.**—An excursion to the magnificent ruins of **Abydos**, though by many Egyptologists to occupy the site of **THIS**, the earliest historical city of Egypt, the birthplace of Mena, first king of the first dynasty. It is also the reputed burial place of Osiris, and certainly one of the most ancient places in Egypt.

Visit the Temple of Seti, decorated with the most beautiful sculptures in Egypt, containing the most wonderful genealogical record in the world, the Tablet of Abydos, and the Temple of Rameses II.

The steamer will proceed as far as Dishneh for the night.

**Sunday, March 15.**—To Kenh, and visit the famous Temple of **Denderah**, on the opposite bank, dedicated to the Egyptian "Venus" Hathor, and so closely associated with the beautiful Cleopatra, to whom much of the fine

**Wednesday, March 11.**—Arrive at **Luxor** in the morning, and transfer to Cook's special steamer, which proceeds up the river to Edfou, arriving in the evening.

**Thursday, March 12.**—Visit the celebrated **Temple of Edfou**, one of the most complete and best preserved specimens of the Egyptian Temple in existence. It is dedicated to Horus, and was commenced in 237 B. C. by Ptolemy III. The length of the Temple is 450 feet, and the entrance is by a double Pylon 250 feet wide and 115 feet high, from the top of which a magnificent view is obtained. Within is the great Court containing a colonnade of 32 columns, leading to the Vestibule with 12 columns and the Hypostyle Hall and other chambers, the Sanctuary, many passages,

etc. The whole edifice contains many inscriptions of the greatest interest. After visiting the Temple the party embarks for Assouan, arriving in the afternoon.

**Friday, March 13.**—**Assouan** is an important town, where a considerable garrison is stationed, 585 miles from Cairo, the scene of many improvements brought about since British occupation. There are some interesting Bazaars, but the importance of the locality to tourists is owing to the many beautiful historic remains. The chief of these is the **Island of Philae**, the Pearl of Egypt, containing many ruins, the principal being the Temple of Isis, and the smaller Temple known as Pharaoh's Bed. On the return to Assouan, the steamer starts on the downward voyage to Luxor.

## Optional Tour from Haifa

TO

# JERUSALEM, THROUGH GALILEE AND SAMARIA.

---

### Nine-Day Tour.

**COST OF EXCURSION..... \$60**

Including all necessary accommodation and travelling expenses.

**Wednesday, March 4.—In Haifa.**

**Thursday, March 5.—By carriage to Nazareth.**

**Friday, March 6.—To Tiberias.**

**Saturday, March 7.—At Tiberias, and return to Nazareth.**

To this point the Tour is identical with the previous one, and the descriptions, sightseeing, etc., are also the same.

**Sunday, March 8.—Day of Rest at Nazareth.**

**Monday, March 9.—**Travel by way of Nain, round Little Hermon, Shunem and Jezreel to Jenin (Engannim) on the Plain of Esdraelon, which is surrounded by mountains—on the south, the Hills of Samaria; west, Mount Carmel; northwest, the Hills of Galilee, and northeast, the mountains of Gilboa.

**Tuesday, March 10.—**Journey to Dothan, and through fertile hills and valleys to Samaria.

**Wednesday, March 11.—**By way of Nablous, the ancient Shechem, Joseph's Tomb, Jacob's Well, and over the ridge of Shiloh to Sinjil.

## Optional Side Trip from Jerusalem

TO

# THE DEAD SEA, THE JORDAN AND JERICHO.

---

**COST OF EXCURSION..... \$10**

Including all necessary accommodation and travelling expenses.

**First Day.**—Leave Jerusalem by carriage or horseback for **Jericho**. Pass round the city, and obtain a good view of the city walls, the Damascus Gate, the Grotto of Jeremiah, the Valley of Jehoshaphat, etc. The route makes a circuit of the city, and, passing the Garden of Gethsemane, turns off near the Tomb of Absalom, across the slope of the Mount of Olives to **Bethany**, where the traditional site of the house of Mary and Martha may be seen. Then across the wilderness of Judea, past the Apostle's Spring and the Inn of the Good Samaritan, to the gorge of the Cherith, thence to **Jericho**, situated on the Plain of the Jordan, in view of the Dead Sea, the Mountains of Moab, the course of the Jordan, the Mount of Temptation and the Valley of the Jordan as far as the snowy Peak of Hermon. Lunch at Jericho.

After lunch proceed across the Plain of the Jordan to the **Dead Sea**, in view of Mount Nebo and Mount Pisgah. This strange body of water, which lies 1,292 feet below the level of the Mediterranean, is intensely salt, and no life exists in its waters. In clear weather the scenery presented by its waters and the surrounding mountains is beautiful. There will be an opportunity for those who desire to bathe in the curiously buoyant waters to do so. Then travel to the **Fords of the Jordan**, where many visitors bathe in the sacred waters, this being the reputed scene of the Baptism of Our Lord. Return to Jericho for the night.

**Second Day.**—Return to Jerusalem, enjoying a magnificent view of the city from the Mount of Olives.

Optional Side Trip from Jerusalem  
TO  
HEBRON.

---

**COST OF EXCURSION..... \$3.50**

The route from Jerusalem passes the **Valley of Hinnom**, the traditional **Well of the Magi** and the **Tomb of Rachel**. Thence to the three **Pools of Solomon**, which lie in a small valley near a castle; then past the Shrine of Abraham to **Hebron**, a town of great antiquity, where tradition places the cave of Macpelah.
